Roberto Prats

Front-end Engineer & Tech Lead

Gaeta, Italy Remote (CET) +39 349 893 0904 roberto.prats00@gmail.com itsrob.dev linkedin.com/in/robertoprats github.com/itsrob00

PROFILE

Front-end developer working in React and TypeScript since 2023 on enterprise systems for the Italian public sector and Sisal. Currently working as Front-end Tech Lead on PCO, I set the technical direction for a team of 3 developers, work closely with back-end, analysts and the client, and am the sole owner of front-end quality with a suite of 1,000+ tests at 85%+ coverage. Pairing my experience and discipline with a tailor-made AI-agent workflow (available on my GitHub) allows me to ship quickly without lowering the quality bar.

EXPERIENCE

Exolab S.r.l., Rome • Front-end Software Engineer — Jan 2023 — now

PCO • Front-end Tech Lead — Jan 2026 — now

Sogei • React, Redux Toolkit, TypeScript, Tailwind, Vite, Jest, Vitest

Time and activity reporting platform for national and regional public facilities, taken over from IBM and in active development.

- Sole owner of front-end QA: introduced unit testing to the project, grew the suite from zero to 1,000+ tests at 85%+ coverage and sign off every front-end release.
- Lead a team of 3 front-end developers on architecture and UX, alongside 4 back-end developers and 2 analysts, and present proposals directly to our clients.
- Build features with devflow, my customised Claude Code workflow built on Matt Pocock's skills and pstack, still in development and open source on GitHub.

VLT Admin Console Component Library • Front-end Consultant — Oct — Dec 2025

Sisal, via Reply • React, Redux Toolkit, TypeScript, Tailwind, Headless UI, Vite

Component library for Sisal's new VLT admin console, built in the 3 months saved by delivering Athena early.

- Designed and built it alone, from UI/UX direction through implementation, with Claude Design and Claude Code.
- Sisal is now using the library to build the console that replaces the old Visual Basic application.

Athena • Front-end Consultant — Jan — Oct 2025

Sisal, via Reply • React, Redux Toolkit, TypeScript, Tailwind, Vite

Game shell hosting Sisal's online games, with player top-ups, withdrawals and history.

- Shipped the full migration from React 15 class components to React 19, and from Webpack to Vite, 3 months ahead of the December deadline, using AI chat assistants to speed up the work.
- Wrote most of the code in a team of 2 developers, ported internal libraries to modern React, and documented the result for handover.

GestCert and EMCS • Front-end Developer — Apr 2023 — Dec 2024

Sogei, for ADM • React, Redux Toolkit, Bootstrap

Production systems of the Italian Customs and Monopolies Agency: GestCert issues the digital certificates operators' systems use to authenticate with ADM servers; EMCS tracks excise goods under duty suspension in real time.

- Delivered front-end features for both systems in a 9—12 person team on the client's release cycle, and helped colleagues through complex tasks.

PROJECTS

devflow • Creator & maintainer — Oct 2026 — now

A Claude Code plugin that plans, builds, checks and proves each task, step by step.

Claude Code • Node.js • JavaScript • github.com/itsrob00/devflow

SKILLS

Front-end: React, TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, Vite, Headless UI, Bootstrap
Leadership: Front-end architecture, Technical leadership, Code review, Release sign-off, Client-facing proposals
Quality: Unit testing, Test strategy, Jest, Vitest, React Testing Library, Front-end QA
AI-assisted development: Claude Code with a custom multi-agent workflow
Also used: Node.js (Express), Java (Spring), REST APIs, MySQL, MongoDB, Git, Figma, Linux

LANGUAGES

Italian (Native) • English (Native)

EDUCATION

CS50x: Introduction to Computer Science • Harvard University (edX) — In progress

Full-stack development programme • Exolab — Sep 2022 — Apr 2023

Java, Spring, MySQL and React course, followed by pair programming with a senior front-end engineer

Technical diploma, Transport and Logistics • Istituto Tecnico Nautico “G. Caboto”, Gaeta — 2019

I authorise the processing of my personal data under EU Regulation 2016/679 (GDPR) and Italian Legislative Decree 196/2003.
